## PRESENTATION

Le dictionnaire des villages du FAKO comprend la liste de tous les villages et camps de travailleurs considérés comme tels par les différentes sources officielles: registre des chefs, recensements administratifs de 1966/69 et de 1972, recensement de 1953, liste des imposables, liste des électeurs par bureau de vote (1970-72), liste des camps de la Cameroons Development Corporation (CDC).

Il donne les chiffres de population des recensements de 1953, de 1966/69, de 1972 (arrondissement de Tiko). Au recensement de 1966/69 très sous-estimé nous avons préféré, pour l'arrondissement de Tiko, le recensement effectué par la CDC dans ses camps en 1968. Les divers éléments démographiques disponibles ont été comparés dans les tableaux statistiques introductifs. L'ensemble des données démographiques compte tenu des corrections effectuées sur les grandes villes et les plantations, semble proche de la réalité (légère sous-estimation parfois). Le lecteur doit donc être conscient du peu de crédit que l'on peut accorder aux chiffres de population donnés qui n'ont d'autre intérêt que de présenter des ordres de grandeur.

Pour les noms de villages nous avons donné les diverses appellations officielles en nous conformant à la graphie de type anglophone. Il y a parfois des divergences avec la prononciation locale.

Les renseignements administratifs, économiques et sociaux figurant dans ce dictionnaire ont été fournis par les divers services administratifs: délégation provinciale de l'enseignement primaire, directions départementales de l'agriculture, des coopératives, de la médecine préventive et des grandes endémies. Les services préfectoraux, les local councils, les sous-préfectures, la Bakweri Cooperative Union of Farmers (BCUF), la Cameroons Development Corporation (C.D.C.) nous ont aidé à compléter notre fichier des villages.

La position de chaque village est donnée par ses coordonnées géographiques exprimées en degrés et minutes: parallèle (distance à l'Equateur) et méridien (distance au méridien de Greenwich). On peut retrouver facilement la plupart des villages dans les cartes topographiques publiées par l'Institut Géographique National (B.P. 157 YAOUNDE):

BUEA-DOUALA		1/200 000
BUEA-DOUALA	1 a	1/50 000
"id"	1 b	1/50 000
"id"	1 d	1/50 000
"id"	2 a	1/50 000

Les cartes au 1/10 000 et au 1/50 000 de la zone de plantation dressées par FAIRY AIR SURVEYS ltd pour le compte de la C.D.C. indiquent la position de nombreux villages et des camps. Les agglomérations de Buea, Tiko-Likomba et Victoria-Bota ont été cartographiées au 1/2 500 par le HUNTING SURVEYS d'après des photographies aériennes prises en 1960.

Le ressort territorial du département du Fako a d'abord été fixé par le décret n° 63-DF-250 du 26 juillet 1963 puis modifié le 30 août 1968 (amputé de l'arrondissement de Bamusso). A l'intérieur, trois arrondissements ont été créés: Muyuka (15-12-1963) Victoria (30-8-1968) et Tiko.

Les groupements judiciaires retenus sont ceux qui ont été établis le 24 octobre 1968 par le Premier Ministre de l'Etat fédéré du Cameroun Occidental en application de la loi sur les tribunaux coutumiers (Chapitre 142 de l'édition des lois de 1948) et publiés dans le supplément de la West Cameroon Gazette n° 49 du 9 novembre 1968.

Ce dictionnaire a été préparé avec la collaboration de Victorine NGO BOTOK et de Francis NGUM KWE.

Nous serions reconnaissant aux utilisateurs de ce dictionnaire de bien vouloir nous signaler toutes les erreurs ou omissions qu'ils pourraient y relever.

## INTRODUCTION

The village dictionary of FAKO division consists of all places considered as villages or camps of workers by the different official documents such as: register of chiefs, administrative censuses of 1966/69 and 1972, 1953 census, tax-payers lists, list of voters for each polling station (1970-72), list of Cameroons Development Corporation (C.D.C.) camps.

It gives population figures extracted from 1953, 1966-69 and 1972 censuses (only for Tiko subdivision in 1972). For Tiko subdivision, the 1966-69 census was under estimated. To have more accurate data we have taken C.D.C. figures for the camps in 1968. The various demographic materials available have been compared in the preliminary statistical tables. It appears that the demographic data seems to be nearly correct after rectification of towns and plantations population figures. Sometimes, there is a slight under estimation.

The reader must bear in mind that these population figures give only an approximate idea of the exact number of inhabitants.

For the names of the villages, we give the various official spellings written in the English way. Sometimes it appears different from the native pronunciation.

Administrative, economic and social informations come from the following departments: provincial delegation for education, agriculture, cooperative and preventive medicine divisional departments. The divisional and subdivisional offices, the local councils, the Bakweri federation of C.P.H.S. (B.C.U.F.), the Cameroons Development Corporation (C.D.C.) gave us help to fulfill all the village card-index.

Our thanks go to all officers who cooperated with us.

The position of each village is given by its geographical coordinates expressed in degrees and minutes: latitude (distance north or south of the Equator) and longitude (distance east or west of the Greenwich meridian).

One can find easily the greater part of the villages in the topographic maps published by the Institut Géographique National (B.P. 157 YAOUNDE) which has printed 5 maps covering the division:

BUEA-DOUALA	in 1 to 200,000
BUEA-DOUALA	1a in 1 to 50,000
"do"	1b in 1 to 50,000
"do"	1d in 1 to 50,000
"do"	2a in 1 to 50,000

There are also maps compiled by FAIRY AIR SURVEYS LTD for CDC in the scale of 1 to 10,000 and town plans (BUEA, TIKO-LIKOMBA, VICTORIA-BOTA) printed by HUNTING SURVEYS in the scale of 1 to 2,500 for the Lands and Surveys. They have been compiled from air-photos taken in 1956 (CDC) and 1960 (Lands and Surveys).

The territorial extent of Fako division was first fixed by decree n° 63-DF-250 of the 26th of july 1963 then modified on the 30th of august 1968 by cutting off Bamusso subdivision. Inside it, has been created three subdivisions: Muyuka (1963) Victoria (1968) and Tiko (1971).

The customary court areas are those established by the Prime Minister of the then Federated State of West Cameroon in october 1968. The list was published on the West Cameroon Gazette supplement n° 49, vol. 8 of the 9th of november, 1968.

This dictionary has been compiled with the collaboration of Victorine NGO BOTOK and Francis NGUM KWE.

We would be grateful to the readers of the dictionary if they point out mistakes and omissions.
